The men of Delta Upsilon worked exceptionally hard a couple of years ago to make ready for recognition by the national organization. Finally, in November 1949, their dreams came true. In their home on North Main street they realized that they had reached one goal, but wanting to do bigger things, they also found that they had just begun.

Well represented on campus, they had men in Omicron Delta Kappa, in Book and Motor, and Dale Patterson was secretary of the Inter-Fraternity Council. Gamma Theta Upsilon, Delta Phi Delta, the Caduceus Club and the

Comte Club were more of the organizations represented by members of Delta Upsilon. James Bores was on the track team. The 55 members of the organization felt somewhat satisfied with their organization.

Leading the group through the first and second semesters, respectively, of 1949-50 were: Ed Merry and Gus Grozdon, presidents; James Stull and Dale Patterson, vice presidents; Don Leedy and Robert Alberts, recording secretaries; Kenneth Rust and Don June were treasurers. Robert W. Twyman, Harmon K. Voskuil and Lyle R. Fletcher were faculty advisors to the group.

Annual Spring Picnic

Phi Alpha Chi

Displaying a lively interest in the business world, members of Phi Alpha Chi, local accounting fraternity, were enlightened by speakers who talked on such subjects as IBM machines. Others from the field of accounting and NCR representatives gave the honorary members the clear picture of the world of business today.

Organized at Bee Gee before the war, the purpose of the organization was to develop the highest ideals among those students interested in accounting and to promote a program of free intercourse with people in the accounting field.

Last year there were 60 members in the organization who qualified with the entrance requirements of a 3.0 in accounting subjects and a 2.2 in other studies.

Officers the past year were: Alan Rosenberg, president; Donald Burgess, vice-president; Katherine Schaller, secretary; and Kenneth Buckenroth, treasurer. William Schmeltz, assistant professor of business administration, was faculty advisor.
